Accent Biosciences Pvt Ltd is a light of innovation located in the heart of Saykha GIDC, Bharuch, Gujarat, India. Our cutting-edge facility exemplifies modernity, meticulously designed to meet the needs of the pharmaceutical business.

Accent Biosciences takes pride in its dedication to quality, which is evident in all aspects of its operations.

Our specialised **API unit** has a multifaceted infrastructure designed to fulfill the severe standards of regulatory authorities such as the **USFDA, MHRA, WHO, TGA, and ICH.**

Embracing our sustainable approach, we have incorporated cutting-edge technology to reduce waste and increase efficiency. With our innovative ETP system and zero discharge facilities, we keep our environmental impact to a minimum, which aligns with our ambition for a **Greener Future** •

Our tagline, **"Activating Quality,"** embodies our ongoing commitment to providing outstanding materials while maintaining the highest quality assurance standards. At Accent Biosciences, greatness is more than a goal; it is a way of life.

Vision

Our vision is to dedicate our efforts towards global expansion and enriching healthcare, enhancing the lives of individuals worldwide.

Mission

Our mission is to lead the Indian healthcare sector while upholding the regulatory standards established by prestigious organizations like the USFDA, MHRA, TGA, and Brazil. In order to satisfy the changing demands of coming generations, we strive to establish the highest standards.

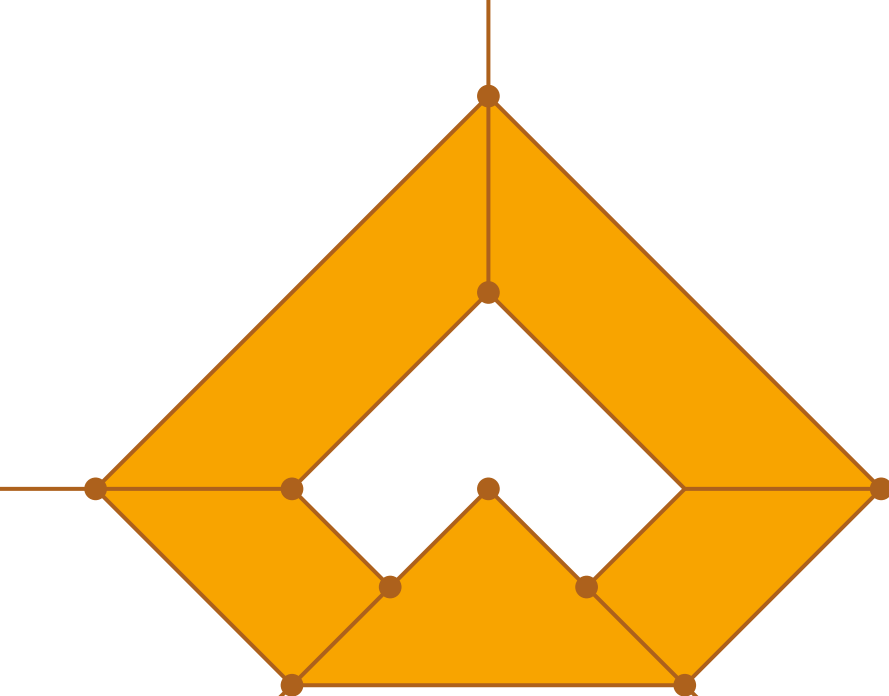

Values

The fundamental principles of our values are ethics, professionalism, honesty, quality of service, innovation, and trust. These values permeate every aspect of our business, together with a deep understanding of the dynamics of the industry.

Goal

By using state-of-the-art technology and a unique methodology, our objective is to guarantee long-term, consistent high quality in our operations.

Quality Policy

Accent Biosciences prioritizes producing high-quality active medicinal components and intermediates. We rigorously follow the rules specified by the World Health Organization (WHO) Good Manufacturing Practice (GMP), as well as any legislation controlling the manufacturing of goods for human use.

This dedication to rigorous manufacturing techniques enables us to service clients both locally and globally, satisfying a variety of regulatory criteria like the European Pharmacopeia, US Pharmacopeia, British Pharmacopeia, Japanese Pharmacopeia, and others.

Our methods are carried out by a team of professionally qualified and experienced employees that meticulously create and verify our goods to guarantee they fulfill the purity, identity, and safety standards.

We are a Champions of Excellence: Innovation, Dedication, and Care

Pioneering Excellence in Pharmaceutical Ingredients

Creating the Healthcare of the Future: We are leaders in pharmaceutical innovation, with a focus on producing premium Active Pharmaceutical Ingredients (APIs). Our cutting-edge facilities and strict quality control measures guarantee that every batch satisfies the most exacting requirements for efficacy and purity. One molecule at a time, you can count on us to provide perfection.

Dossier Excellence and Technology Transfer Mastery

By expertly navigating the intricacies of technology transfer and preparing dossiers, we guarantee a smooth transition from development to market. Our committed staff creates thorough dossiers that adhere to international regulatory requirements, guaranteeing that your products operate at peak efficiency and comply with all regulations. Put your trust in us to successfully innovate.

Empowering Innovation: Contract R&D and Manufacturing Services

Our Contract R&D and Manufacturing Services make your idea a reality by integrating cutting-edge research with innovative manufacturing to create customised solutions. Our inventive R&D activities maintain us at the cutting edge of technology, developing future-shaping solutions. Partner with us to precisely translate ideas into commercial goods, revolutionizing your industry.

Precision in Progress: Producing High-Quality Intermediates

Our dedication to producing high-quality intermediates is crucial to innovation and lays the groundwork for pharmaceutical excellence. We use innovative technologies and strict quality control to ensure that each intermediate fulfils the highest purity and performance criteria. Partner with us for dependability and precision at every stage of your production process.

Unmatched Precision: Expert Contract Lab Testing

With our skilled Contract Lab Testing services, you will get exceptional accuracy and reliability. We use cutting-edge technology and tight standards to provide exact, reliable outcomes for your crucial projects. Our committed team will ensure that your products satisfy the highest quality and regulatory standards.

Production Capacity

Accent Biosciences' manufacturing capabilities are exceedingly high of remarkable. With cutting-edge equipment and technology, we can rapidly and accurately produce a broad variety of pharmaceutical items.

From small batches to huge operations, our flexible and scalable manufacturing techniques allow us to satisfy our clients' expectations with accuracy and dependability. Our manufacturing capabilities, together with our severe quality control procedures and adherence to regulatory requirements, guarantee that every product that leaves our plant is of the highest quality and effectiveness, helping to improve healthcare throughout the globe.

Process

Accent Biosciences is committed to quality and applies quality systems everywhere. From raw materials entering our facility to finished products leaving our doors, every step of the manufacturing process is monitored and supervised to ensure quality.

To assure ingredient purity, we start with thorough supplier verification and material testing. To guarantee regulatory and internal compliance, our quality assurance professionals check and test throughout the production process.

We employ advanced analytical methods and technology to verify our products' identity, purity, potency, and safety. We extensively test our products for pollutants, microbiological contamination, and stability to ensure they meet or exceed industry standards.

Our quality attitude requires continuous development, therefore we ask consumers, regulatory bodies, and internal stakeholders for feedback. We promote quality across our company and engage in ongoing training to achieve excellence.

We go beyond compliance to create superior products that benefit patients and healthcare professionals. Our dedication to quality sets us apart as a pharmaceutical leader.

Product Range

Accent Biosciences Pvt Ltd's Saykha plant proudly offers over 40 expertly created items. Few of them are already in production and listed below. These goods are precisely created and produced to fulfill the rigorous standards established by the US Food and Drug Administration (USFDA) and the World Health Organization (WHO). Our comprehensive variety spans many sectors of the pharmaceutical business and includes a wide range of therapeutic areas, ensuring that we meet the unique demands of our clients while also contributing to the improvement of healthcare worldwide.

Product	Category	CAS No.	Grade	Application
Artemether	Antimalarial	71963-77-4	IP / Ph.int	Used to treat Malaria and Dengue.
lumefantrine	Antimalarial	82186-77-4	USP / IP	Used to treat Malaria and Dengue.
Citicoline Sodium	Psychostimulants and nootropics	33818-15-4	USP / IP	Used to treat stroke, head injury, Alzheimer's disease and dementia.
Telmisartan	Anti Hypertensive - angiotensin II receptor blocker	144701-48-4	IP / BP / EP/ USP	Used to treat Blood pressure by relaxing the blood Vessels.
Teneligliptin	Antidiabetic	1572583-29-9	IP	Used to treat diabetes mellitus.
Ensulizole	Sunscreen agent	27503-81-7	IP / BP / EP/ USP	Used as Sunscreen agent-Absorb UV Radiation.
CCS	Excipient	74811-65-7	IP / BP / EP/ USP	Use as a Excipient for different formulations.
